

FAQ

Where do the the Seller tagline and blurb appear?

When you set up your Seller profile, you will be asked for a tagline and a blurb. These are optional fields. The text that you enter in the tagline will appear on your public profile page (<https://my360shop.com/username/>) as well as on the email sent to the Buyer. The blurb text will appear on the public profile page only.

The tagline and blurb will also appear when your profile page or any galleries are shared in social media. We have performed social media optimization on these pages, so when someone shares one of your galleries or your profile page in Facebook, this is how it will look:
